

# Nomination Form for Induction into the 2005 Kansas Waste Management Hall of Fame

Kansas Department of Health and Environment, Bureau of Waste Management

---

Do you know someone who has made a major difference in the management of solid waste in Kansas? KDHE will establish and introduce the ***“Waste Management Hall of Fame”*** at the 10th Annual Recycling & Composting Works! Conference in Lindsborg on March 23-25, 2004. At this time, we are soliciting nominations for induction into the Hall of Fame in 2005 (next year’s conference). Nominees should have demonstrated consistent exemplary performance over a period of years yielding clear improvements in the management of waste materials. The ideal nominees will have had a positive impact on waste management statewide or at least regionally. Eligible areas of contribution to improved waste management include:

- Landfill or transfer station operations and management
- Waste reduction through recycling, composting and household hazardous waste collection
- Solid waste facility design and/or construction
- Technical training for facility operators
- Public education including student outreach programs
- Regionalization of solid waste services

The final selection of 2005 inductees from the list of nominees will be made by an appointed group of non-KDHE persons yet to be determined (in late 2004).
